

**BSR/ASHRAE/IES Addendum d
to ANSI/ASHRAE/IES Standard 202-2018**

Public Review Draft

Proposed Addendum d to Standard 202-2018, Commissioning Process for New Buildings and New Systems

**First Public Review (August 2022)
(Draft shows Proposed Changes to Current Standard)**

This draft has been recommended for public review by the responsible project committee. To submit a comment on this proposed standard, go to the ASHRAE website at <https://www.ashrae.org/technical-resources/standards-and-guidelines/public-review-drafts> and access the online comment database. The draft is subject to modification until it is approved for publication by the Board of Directors and ANSI. Until this time, the current edition of the standard (as modified by any published addenda on the ASHRAE website) remains in effect. The current edition of any standard may be purchased from the ASHRAE Online Store at www.ashrae.org/bookstore or by calling 404-636-8400 or 1-800-727-4723 (for orders in the U.S. or Canada).

This standard is under continuous maintenance. To propose a change to the current standard, use the change submittal form available on the ASHRAE website, www.ashrae.org.

The appearance of any technical data or editorial material in this public review document does not constitute endorsement, warranty, or guaranty by ASHRAE of any product, service, process, procedure, or design, and ASHRAE expressly disclaims such.

(This foreword is not part of this standard. It is merely informative and does not contain requirements necessary for conformance to the standard. It has not been processed according to the ANSI requirements for a standard and may contain material that has not been subject to public review or a consensus process. Unresolved objectors on informative material are not offered the right to appeal at ASHRAE or ANSI.)

FOREWORD

This proposed addendum adds additional clarity to construction phase activity requirements.

Note: This addendum makes proposed changes to the current standard. These changes are indicated in the text by underlining (for additions) and ~~striketrough~~ (for deletions) except where the reviewer instructions specifically describe some other means of showing the changes. Only these changes to the current standard are open for review and comment at this time. Additional material is provided for context only and is not open for comment except as it relates to the proposed changes.

Addendum d to Standard 202-2018

Modify Section 12 as follows. The remainder of Section 12 remains unchanged.

12. CONSTRUCTION OBSERVATION AND TESTING

[...]

12.2.6 Site Visits

- a. Site visits are a required method used during the Construction Phase to verify that the installed systems and assemblies comply with the OPR.
- b. A clear, concise, and consistent procedure shall be developed as part of the Cx Plan and followed for each site visit to properly identify Construction Phase process problems and issues.
- c. The final Cx Report shall include a summary of all site visit reports.
